"NONE BETTER GROWN"

Special Midsummer Offer of Bulbs for early forcing

CALIFORNIA

GENERAL
PERSHING

IMPROVED
PURITY
(in centre)

THE FINEST in FREESIAS

Unusual interest centers around Freesias this season for they are most likely to replace the large quantities of Narcissus that were usually forced for Christmas and the early months of the year, and which are now available only in limited quantities.

Freesias have invariably been a profitable crop and this year the prospects are unusually bright. Quite naturally, the demand has increased but we have anticipated this condition, and have provided an additional quantity of the same high class stock as we have handled in past seasons and we are prepared to take care of your order.

The bulbs will be ready in July and August and we advise early planting for best results.

IMPROVED PURITY

	Per 1,000	Per 10,000	Per 50,000
1/2 to 5/8.....	\$12.50	\$114.00	\$500.00
5/8 to 3/4.....	21.00	200.00	
3/4 and up.....	35.00	335.00	

GENERAL PERSHING

The Popular Pink Variety

1,000, \$22.50	10,000 \$215.00	25,000 \$500.00
----------------	-----------------	-----------------

CALIFORNIA

The Finest Yellow Kind

There will be an extreme shortage of yellow flowers this winter and these yellow Freesias will bring good prices.

1,000, \$32.00	10,000, \$310.00	25,000, \$750.00
----------------	------------------	------------------

CARMENCITA. Medium sized flower of a beautiful orange-salmon hue with buff shadings on the lower petals, long wiry stems. 100, \$3.50; 1,000, \$30.00

AURORA. A large-flowering yellow suffused with orange. 100, \$3.50; 1,000, \$30.00

CARRIE BUDAU. A lavender pink, a great improvement over Gen. Pershing; flowers larger and heavier stems. An enormous grower.

100, \$3.75; 1,000, \$33.00

ILENA. Deep rosy lavender with white throat, deep orange blotch on lower petal and having good stiff stems. Flowers large and very attractive.

100, \$1.25; 1,000, \$37.00

OLIVETT. Bright carmine red with light yellow throat, lower petals having a deep yellow blotch with crimson veins. Very profuse bloomer.

100, \$3.75; 1,000, \$33.00

YELLOW PRINCE. A somewhat darker flower than California. Stems extra long and wiry.

100, \$3.50; 1,000, \$30.00

AMETHYST. A beautiful amethyst blue with light center. Strong sturdy growth.

100, \$3.75; 1,000, \$33.00

MRS. MARC PETER. A very attractive deep rosy salmon with lower petals blotched orange and yellow. Flowers are of good size and open up well. This variety is a good keeper and one of the earliest to bloom, giving it a special market value.

100, \$5.50; 1,000, \$45.00

*The most progressive and successful growers
in America of embargoed Bulbs and Roots.*

"BUY DIRECT FROM THE PRODUCERS"

WITH the Narcissus embargo now into effect, a problem confronts those who have formerly either grown or sold these bulbs in quantity, for the available supply of domestic bulbs is limited for the time being.

The trade is aware that we have anticipated this condition and that we are possibly the foremost producers of a general collection of these bulbs and other quarantined bulbous items in this country. Unlike many planters who waited until the last minute to get started, we have proceeded only after making careful experiments

in many sections over a long period, with a result that we have definite knowledge of the producing quality of the bulbs we are now ready to send out.

But our supply is not large enough to meet every demand, so we urge our customers to order only moderate quantities and to turn to other items to fill the gaps. Such stocks as white Freesias, Prepared Hyacinths and Cold Storage Valley are very acceptable substitutes for the large quantity of Paperwhites formerly forced for the holidays, while Yellow Freesias and Tulips will serve in place of the Daffodils.

Narcissus and Daffodils

PAPERWHITE GRANDIFLORA

As this list goes to press, we are engaged in the digging and curing of these bulbs at our Florida farms and their appearance meets our every expectation and justifies our belief that they are the finest stocks of proven quality bulbs in the country. While the demand much exceeds the limited supply, we have reserved a quantity for distribution among our mail order buyers. We do not want large orders, but rather seek to spread the available quantity over the greatest number of our customers who yearly rely upon us for their general list of requirements.

First size bulbs, per 100, \$5.50; per 1,000, \$17.50
Mammoth bulbs, per 100, \$6.50; per 1,000, \$55.00

NARCISSUS, SOLEIL D'OR

We are growing the true deep golden yellow type and our stock—which incidentally is by far the largest planting in the country—is turning out splendidly. Our forcing tests last year convinced us that our location was ideal for the production of these bulbs, and we can assure our trade the stock we will deliver will be most acceptable.

Large bulbs, per 100, \$11.00; per 1,000, \$95.00

HARDY NARCISSUS

We are one of the largest growers of these bulbs in this country and the complete catalogue that we will send out September 1st will give the list of varieties with prices.

CHINESE SACRED LILIES

Our Florida grown bulbs do not resemble those formerly imported from China, as they do not retain the extra clusters which produced nothing but foliage. We are producing a large well-connected solid bulb that flowers satisfactorily and this is more than can be said of the China product. We believe the flowers to be most acceptable to the florist trade.

Large bulbs, per 100, \$1.50; per 1,000, \$120.00

PRICES AND TERMS

All items offered in this catalogue are f. o. b. New York, packing extra. We sell six bulbs or more at dozen rate, 25 at 100 rate and 250 at 1,000 rate. Payment, unless specially arranged for, 2% in 10 days, net 60 days, or less 5% for cash with order. Deliveries subject to prior sale, crop conditions and/or other causes beyond our control. While we exercise the greatest care and precaution to supply only such stocks as will, in our opinion, produce the finest results and give entire satisfaction, we give no warranty, expressed or implied, as to the quality or productiveness of any bulbs, seeds or plants we send out and will in no instance become responsible for the crop. No complaints entertained unless made within five days after receipt of goods. This catalogue cancels all former quotations.

ANEMONES

Anemones are becoming a leading market flower—not in quantity because there are never enough to meet the demand, but they are decidedly popular, and those who have been successful in forcing them have been amply repaid. They are invariably sold quickly at a good price. They provide color effects that are unsurpassable in intensity, and a prolonged marketable season for the flowers can be maintained by planting successive batches.

Culture. Anemones like cool moisture and leafy loam, and above all, good drainage to prevent stagnation which rots the bulbs. The best potting or benching mixture is made with equal parts of rich well-manured loam, leaf mold, and clean fresh sand. Deep pans are better than pots, but whether grown this way or in benches avoid all chance of sour accumulation of moisture by providing good drainage. The first bulbs should be put in in October for February bloom, and later batches for late spring bloom. Give a cool shady position at first until roots are formed, then place near the glass with never more than 55 degrees to 60 degrees temperature.

Our Anemones have been giving splendid results for the past 3 years or more, and we have a splendid crop to offer this year.

	100	1,000
DE CAEN, the single form	\$4.25	\$35.00

ST. BRIGID, full, double flowers. True variety is very scarce..	5.50	50.00
---	------	-------

ANEMONE ST. BRIGID

TRITONIA CROCATA

TRITONIA CROCATA

This is an old and perhaps somewhat neglected bulb that has recently received much attention as one of the most strikingly brilliant and interesting of Winter and Spring forcing bulbs. It has the character of the Freesia but the flower spike is more like a Montbretia, the stems being thin, long, wiry and upright. The flowers are bright orange scarlet and make a most attractive pot or pan plant, though the stiff stem and flower spike make it a valuable cut flower also. Requires the same treatment under glass as Freesias.

We have been growing quite a quantity of these for the past few years, and have a fine stock to offer of large, plump, forcing bulbs.

Price—Per 100, \$4.50; per 1,000, \$40.00

RANUNCULUS

COLCHICUM and AUTUMN-FLOWERING CROCUS

COLCHICUM AUTUMNALE MAJOR.

We know that the trade will welcome our offer of these bulbs, the first since the embargo. We have only a limited supply this year, but the quantity will be larger very shortly. These unique bulbs bloom in early Fall and the foliage follows in the Spring. They flower readily in the home without planting. The color is rosy lavender.

Per doz., \$4.00; per 100, \$25.00

CROCUS ZONATUS. This is an early-flowering, forcing species of delicate refinement and surpassing beauty. Its earliness and easy growth have much to do with its popularity. Thrives and blooms profusely in a few weeks after starting in pans, bowls or saucers of fiber. An ornament of rare beauty and really a novelty for quick sales when displayed on counter or window. Flowers are pale rosy lilac with orange center.

Price per 100, \$2.50; per 1,000, \$20.00

CROCUS SPECIOSUS. This species is similar in character to the C. Zonatus, the flowers being an attractive shade of rich deep blue, with orange anthers.

Price per 100, \$3.00; per 1,000, \$25.00

RANUNCULUS

The giant French Ranunculus resemble in form a miniature pompon Dahlia but are as brilliant and varied in coloring as the Poppies and Anemones. In forcing them, give the same treatment as Anemones, but they do not mature quite as early.

GIANT FRENCH MIXED. The Californian grown bulbs are giving splendid results, and we have several letters from customers telling us of the fine flowers produced. Beautiful rosette flowers in a wide range of colors. Force well and are money makers.

Regular First Size—100, \$3.00; 1,000, \$25.00

Mammoth Bulbs— 100, 4.25; 1,000, 35.00

BARKER—FLORIST
Morristown, N. J.

May 1st, 1926

F. Rynveld & Sons,
New York City.

"Dear Sirs:—

The Ranunculus Bulbs you sent me last fall have been most satisfactory, with a nice assortment of beautiful colors.

Very truly yours,
JOHN M. BARKER."

CROCUS ZONATUS

SPANISH IRIS

IRIS TINGITANA

While this Iris is an uncertain producer with some growers, we have many others who tell us that they are getting splendid results, and we believe that it is all a matter of handling. It is a good money maker for those who can grow it. We offer the finest California bulbs.

Per 100, \$7.50; per 1,000, \$65.00

NERINE SARNIENSIS

Commonly known as the "Guernsey Lily."

One of the easiest to grow of all greenhouse bulbs, and worthy of a little special effort to get them at their best. Large circular umbels of tubular rosy red flowers; makes an uncommonly handsome pot plant that is a ready seller, the only effort required being to produce sufficient stock to meet with the demand.

Culture—Bulbs should be potted up in July or August, 3 to 5 in a pot, according to size. Do not water frequently until growth appears, then keep saturated until they bloom. Good drainage is essential. After flowering (if unsold) pots should be turned on their sides in full sunlight for 3 months so that bulbs become thoroughly dried and ripened.

Our Florida bulbs have done splendidly this year, which we offer to first comers at

Per dozen, \$1.15; per 100, \$7.50

LILY OF THE VALLEY

Lily of the Valley should be in good demand around the holidays when the normal supply of Paperwhites will be absent. We have in storage a nice lot of our Newport Brand stock and it is giving entire satisfaction with a great many growers. The prices are as follows:

Newport Brand

(Finest Quality)

*For Fall and Xmas forcing
Prices on cold storage tips*

Case of 250.....	\$ 9.00
Case of 500.....	17.00
Case of 1000.....	32.00
Case of 2500.....	75.00

We carry at all times in cold storage in New York, Valley in cases as above specified, and can make freight or express shipments at any specified date.

SPANISH IRIS

These take a prominent place among the cheaper stocks of forcing bulbs. They require to be "potted" or "flatted" very early, preferably September, as they root very quickly and are not improved by a long "out-of-ground season."

We have been growing both these and *Filifolia* for the past three years on our Long Island Farms, where soil seems eminently suited to them, and we have one of the largest crops of any in the country, just harvested in the pink of condition.

	100	1,000
KING OF THE BLUES. Fine blue.....	\$4.00	\$35.00
CAJANUS. Tall yellow.....	4.00	35.00
RECONNAISSANCE. Bronze.....	4.00	35.00
QUEEN WILHELMINA. White.....	4.00	35.00

IRIS FILIFOLIA "IMPERATOR"

IRIS FILIFOLIA "IMPERATOR"

For two years this great forcing Iris has been creating much favorable comment at leading Spring Flower Shows, and growers are unanimous in their opinion of its great value as a forcing cut flower. It is somewhat similar in character to the old Spanish type, but larger and earlier. The color is clear brilliant blue.

American-grown bulbs are proving very satisfactory and excellent blooming percentages are reported by growers. The bulbs are larger than those formerly imported \$6.00 \$50.00

LILY OF THE VALLEY—"NEWPORT" BRAND

Florists' Forcing EASTER LILIES LILIUM HARRISII

"Blue Ribbon" and other dependable brands.

The Bermuda Government is constantly seeking to aid the growers in their development of the Lily industry, and this season it is permitting only field inspected stocks of the true type to be sent out as "Harrisii." This ruling will not affect our stocks, for our growers have never shipped us anything but the true type, but it will eliminate price cutting on the mixed Longiflorum sold as Harrisii. So watch for the label.

Lilium Harrisii is still the best lily for the small grower who cannot devote a whole house to lilies. The bulbs are cheaper this year.

	Per 100	Per Case
6/7 in., packed 335 to case.....	\$14.00	\$37.50
7/9 in., packed 200 to case.....	20.00	37.50
8/10 in., packed 150 to case.....	30.00	37.50
9/11 in., packed 100 to case.....	37.50	—

LILIUM ERABU

We have discontinued handling the old type of Lilium Formosum as it was not giving uniform results with our customers, and in its place are now offering the genuine Lilium Erabu, which is a newly developed strain and one that has given very fine results wherever grown. We guarantee our bulbs to be the genuine Erabu stock. Bulbs are cheaper this year.

	Per 100	Per Case
7/9 in., packed 300 to case.....	\$12.00	\$27.00
8/10 in., packed 225 to case.....	15.00	28.00
9/10 in., packed 200 to case.....	17.00	28.00

CALLA LILIES AETHIOPICA

The well-known white Calla. The demand usually exceeds the supply, so we suggest early orders. Growers have made money on Callas the past few seasons.

	100	1,000
1½ to 2 in.....	\$15.00	\$140.00
2 to 2½ in.....	25.00	225.00

GODFREY

This variety is becoming the most popular white Calla. Does not make as large a bulb as Aethiopica, but the flowers are just as big and there are more of them. We have a fine stock.

	100	1,000
1¼ to 1½ in.....	\$15.00	\$135.00
1½ and up.....	18.50	160.00

DUTCH BULBS

While our complete list will be shown in the catalog we issue September 1st, we are prepared at this time to make very special quotations on orders for direct importation.

We are in constant cable communication with our Holland house and can give our customers the benefit of prevailing market prices. Our crop looks fine and we know that we can please you.

Send in your list of requirements for prices.

PREPARED HYACINTHS IN BLOOM

Rynveld's Specially Prepared **HYACINTHS** for Early Forcing

We have paid much attention to these in late years as they undoubtedly offer many advantages to the expert florist for extra profits.

These bulbs are intended purely for forcing, and have been submitted to a process that ensures early ripening, with the result that bulbs will be in condition to respond to "real forcing" in time for Christmas trade.

Don't be fooled with so-called "Prepared Hyacinths"—there are few sources for the real thing. We have been working on them for years and can give the names of many growers all over the country who are invariably the first to have flowers on the market.

VARIETIES and PRICES

First Size		13/15 ctm. Miniature.	
L'INNOCENCE—White.		L'INNOCENCE—White.

100, \$15.50	1000, \$135.00	100, \$8.50	1000, \$75.00

AMARYLLIS BELLADONNA

One of the best of "cool house" flowering bulbs. Large trumpet-shaped flowers of a pale china pink. We can make immediate delivery of these bulbs, as they require to be potted in August for earliest flowers.

Per 1000, \$150.00; per 100, \$17.50

MUSCARIA (Grape Hyacinth) "HEAVENLY BLUE"

This is without a doubt the greatest of all the Grape Hyacinths. The spikes are almost as large as a small hyacinth and are really "true blue" in color. Whether planted outdoors or forced inside, gratifying results are equally assured.

With the craze for early blue flowers, here is certainly one that should be more generally used, for it is easily forced and can be used both cut and for pans. As an edging to the late flowering Darwin and other tulips, this rich blue Muscaria is most effective, especially with the lighter shades of tulips.

Muscari have flourished and are producing monster bulbs on our Long Island farm, 2 and 3 spikes to the bulbs being nothing unusual.

Price per 100, \$3.00; per 1,000, \$25.00

OXALIS

These are becoming very much in demand for winter forcing. Successive crops may be had from November till late spring by planting at intervals from August onwards. They are most effective planted in pans, 1½ in. to 2 in. intervals between bulbs, and make delightful subjects for rooms, sun parlors, etc., simply covering themselves with bloom. Florists will find these good sellers, either dormant or as blooming plants.

	100	1,000	Grand Duchess,	100	1,000
Grand Duchess, Pink...	\$1.50	\$12.00	Lavender	1.50	12.00
Grand Duchess, White..	1.50	12.00	Grand Duchess, Yellow..	1.75	15.00

WATSONIA ARDERNEI ALBA

This is the large, snow-white South African "Bugle Flower," and a most lovely plant for pots and pans in the cool greenhouse. Seedsman should list and recommend this for conservatory and sun parlor. The graceful branches grow from 2 to 3 feet high, covered with elegant, glistening, snow-white blossoms. Remove the top flowers when fading, and the lower spikes rapidly develop, thus maintaining a long flowering season.

Price per 100, \$6.00; per 1,000, \$50.00

*Ask for Our Complete Autumn
Catalog ready September 1st.*

MUSCARIA "HEAVENLY BLUE"
